   a) tool b) robot c) program d) brain
4. The team received very helpful ..... on their new science project [AB].
   a) order b) limit c) feedback d) behavior

2. Read and complete the text with the words in the box: (2 Marks)

(customized - task - smart - instantly - will)

The future of transportation will be very different due to technology. We will use (1)..... cars that can drive themselves without a driver. Every simple (2)..... of driving will be controlled by advanced programs. These journeys can be (3)..... to suit the passenger's needs. Traffic information will be sent (4)..... to the car's computer to avoid accidents. This will make our daily travel safe and fast.

3. Read the following text, then answer the questions: (6 Marks)

Many people believe that technology is changing how we create art. Today, Artificial Intelligence is used to compose songs and write poems. Advanced machines study thousands of human paintings to find patterns. Using this information, a virtual artist can create a new picture in a few seconds. However, these smart systems still have some limits. Computers cannot feel real emotions, and they need humans to program them. AI is a powerful tool, but it does not have the care or deep feelings of a human artist. True **innovation** still requires our own creativity. In the future, many beautiful pictures will be created using computers. But we must remember that machines only copy patterns; they do not have a soul. Therefore, human artists will always be important to make our world inspiring.

A) Choose the correct answer from a, b, c or d: (3 Marks)

1. The main idea of the passage is ..... .
   a) robots are bad b) AI and art c) computer games d) school systems
2. The underlined word "innovation" is closest in meaning to .....
   a) difficulty b) creation c) mistake d) limit
3. According to the text, advanced machines cannot ..... .
   a) find patterns b) feel emotions
   c) write poems d) study paintings

B) Answer the following questions: (3 Marks)

4. Why are human artists still important according to the writer?
   .....
5. How does a virtual artist learn to create pictures?
   .....
6. Summarize the limits of Artificial Intelligence mentioned in the text.
   .....

   a) Internet b) Industry c) Intelligence d) Innovation
4. We can send an ..... message to anyone using a smartphone [AB].
   a) instant b) slow c) expensive d) advanced

2. Read and complete the text with the words in the box: (2 Marks)

(limits - behavior - humans - smart - advanced)

Egypt is building new cities that use modern technology. These (1)..... cities are designed with green energy and digital services. They have (2)..... transportation systems like the high-speed electric trains. However, these digital systems still have (3)..... because they cannot think like people. In the end, smart technology must be controlled by (4)..... to make our daily lives safer and cleaner. This helps us build a brighter future for the country.

3. Read the following text, then answer the questions: (6 Marks)

Today, digital technology is a big part of our homes. Many people use voice assistants on their smartphones to play music, check the weather, or turn off lights. These devices use Artificial Intelligence to understand our voice commands. They learn from our daily choices and customize their behavior to give better suggestions. For example, when you search for a product online, smart shopping programs instantly show similar items that you might like. However, these smart devices have some limits. They do not truly understand human emotions like happiness or sadness. They are only machines that follow special algorithms. Making these advanced programs is also very **expensive**. Some people worry about privacy when they use voice assistants at home. Therefore, we should use this technology carefully. We must make sure that we control these smart devices rather than letting them control our daily lives.

A) Choose the correct answer from a, b, c or d: (3 Marks)

1. Voice assistants use Artificial Intelligence to ..... .
   a) make food b) understand commands
   c) clean rooms d) build houses
2. Smart shopping programs learn from our .....
   a) books b) daily choices c) parents d) weather
3. The underlined word "expensive" is the opposite of .....
   a) cheap b) advanced c) beautiful d) smart

B) Answer the following questions: (3 Marks)

4. Why do some people worry about using voice assistants at home?
   .....
5. What is one main limit of smart devices mentioned in the passage?
   .....
6. What does the writer advise us to do at the end of the text?
   .....

Subject: .....English 9 (1) 1st Term.. Date : ..2026 / 2027...
